very large separate cabins, both with lots of storage and even en-suites bathrooms. Fully appointed galley, and large lounge/living room, with tasteful fabric in good condition, large flatscreen TV on the wall towards the forward cabin and space enough for 5-6 people around the table. If needed the sofa in the lounge can be converted to two extra beds.

Outside you find the nice “lounge area” with cockpit table next to the twin drivers seat. A few steps down and you are at sun and drinks area where you find freezer and an outdoor sink useful when preparing your drinks or barbecue. Here is also the access to the aft platform for easy access to the swim ladder, life raft and dinghy (not included) or water toys.

The complete aft area can be covered with a large cockpit tent/hood making this area very useful in all times and provide great protection when driving the boat in all weather. Here is also the access to the large engine compartment and even a small escape door directly from the aft cabin.

Sealine is a well known UK brand with innovative history and good quality products. Established in 1972 in the heartland of UK industrial design and engineering, Sealine has always been quick to adapt and innovate. Right from its inception, it channeled its efforts into the design and production of GRP power cruisers for the recreational market – and the key design intent behind these craft was to ensure that every spare inch of space was profitably utilised for the benefit of the owner, which is clear when you see this 365 Sports Bridge from 1989.

This 365 Sports Bridge comes with what you need in term of comfort and technical equipment. Several updates and services done over the last couple of years
